

LTV® Series 1150 Ventilator

Confidence, Versatility and Comfort

The LTV® Series 1150 ventilator provides portable, advanced ventilation for pediatric and adult patients at home or a post-acute care facility. At only 14 lbs, the ventilator provides a wide range of ventilation therapies to meet demanding patient needs, including volume control, pressure control, pressure support and spontaneous breath types.

"The LTV ventilator gives us the flexibility and freedom to live a fuller life. We can travel anywhere knowing that our daughter is safe and secure.**"**

Morris Family, Aliso Viejo, CA

Unicare Support and Satisfaction

Unicare understands the importance of portability, convenience and safety in homecare. This is why we offer our customers top-of-the line products that enable freedom, flexibility and comfort. Our proactive maintenance program ensures optimal ventilator performance, and our support team is always available, offering 24/7 training and support.

Unlike any other home care ventilator on the market today, the LTV 1150 ventilator allows highly customizable settings for increased patient success through periods of stability or acceleration of their respiratory conditions.

Breath Types:

- Volume, Pressure Control, Pressure Support.
