

## Newport HT70

### Versatility to Meet Your Needs

The Newport HT70® Ventilator combines ease of use, clinical finesse, exceptional portability, and ruggedness in one compact package.

Designed for patients  $\geq 5\text{kg}$  to adult, the HT70 is ideal for home care, transport, hospital, long-term care, and emergency preparedness applications for invasive or noninvasive ventilation.

“Unicare always provides the latest, top-of-the-line equipment, and they’re always available, making sure our questions are answered, and our needs are met.”

Johnson Family, Anaheim, CA

### Unicare - Your Partner in Health

Unicare Health Services is the best in the industry because of the focus on its patients. We pride ourselves by providing cutting-edge, top-of-the-line products and supplies that enable patients to be worry-free and enjoy life.

With its rugged and reliable construction, this ventilator is designed to withstand rough treatment in a wide range of environments. Also, it’s full-color touch screen provides easy access to all controls, simple navigation and a help guide for added convenience.

### DeVilbiss 7305 Features:

- An on-airway flow sensor provides more choices for ventilation—inspiratory or expiratory monitoring and alarms, flow or pressure trigger.
- The hot-swappable battery provides up to 10 hours of operation (depending on settings).
- The Battery Time Estimator provides added peace of mind during transports.
- Built-in oxygen monitoring and alarms alert users to changes or disruptions when using supplemental oxygen.
